"GIVE ME THE LIBERTY TO KNOW, TO UTTER, AND TO ARGUE FREELY, ACCORDING TO CONSCIENCE, ABOVE ALL OTHER LIBERTY."

NEWMARKET, C. W., FRIDAY, OCTOBER 23, 1857.

The Summer Days are Pest.

No fading leaf was seen.
To-day, although the fields are strewed.

It seems but yesterday, the woods.

With still ungathered sheaves,

The sky has lost the soft warm hue

But even now the morning breaks

Storm clouds are hurried by.

The summer birds have sought a land

Where softer zephrys blow. The sweetest of the summer flowers

The summer breeze, among the trees,

The evening winds sweep by.

Now with a sharp, cold, shivering sound,

Have dyed the maple tross.

It wears in summer time,

Beht & sunnier clime.

Upon a bleaker sky-

The radiance that might to well

Already by the gotumn winds

Have faded long ago, :

Oft dreamily would night

Yet here and there dark crimton tinta

Were robed in living green, No sign, no token of decay,

THREE CHEERS FOR PONTIAC. -- We received intelligence late on Saturday, that Mr. Gco. Bryson, the Opposition candidate for Pontiac, was elected by 481 majority. This majority was expected from the enthusiasm of his friends, who were in a large majority of the nomination. Every Protestant in the country will rejoice that the Priests' tool. Burke, has been elected to stay at home. He was the candidate of the priest-ridden Government, though some of the organs, apprehensive of his defeat, have attempted to repudinto the connection. He would have proved but a shabby supporter, it is true, but the Government would have anapped at his vote just as greedily as that of any other Romanist in the House, . In this election the Romish party threw off all guise, and made the religion of the candidate, and the interests of the "Church" their rallying cry. Mr. Bryson took the field as a Protestant, and the enemy of that priestly rule under which the country is now grouning. He is represented to be A man of sterling principle, and will, we trust, prove a useful member of the Legislature. - 1: SAD CALAMITY-We deeply regret to

Hewmarket, Friday Oct. 23, 1857. General Summary.

On Monday evening next the 26th inst the members of the Mechanics' Institute elect effice bearers for the ensuing year. See advertisement.

Our Merchants, notwithstanding the lightness of the money market, are now receiving large additions to their stock. Mr. Parker and Mr. Bogart have announced that their stock is now open for inspection.

A Requisition from sume of the electors of Lambion has been presented to Ma'colm Cameron,-the Coon on the Wabash-and accepted. The sitting member, Geo. Brown, Req.; will again seek the suffrages of that constituency also, in all probability.

- It is with pleasure we announce that the work on the Town Line West has commenced. By reference to our advertising columns it will be seen that a call of the first instalment is requested. We hope that every subscriber will at once see and leel the importance of early responding to that call.

We beg to direct the attention of the Reere and Council of Whitchurch to the Male of the Bridge on Mill Street, crossing the Railway Track. It wants to be covered entirely new, as the planks in many cases are worn through. Our overseers have no control of the matter; we hope, therefore, the highest authorlif in the Township-the Council-will cause the Railroad Company to repair it immediately.

We regret that o few errors were made in the published prize list of the North York Agricultural Society last week. Mr. George Sexsmith took the first prize for fine boots; and for two year old Heifers, instead of John Willson, it should have been Mr. Joshua Willson. In Wooden Ploughs, the names to prizes should have been transposed Mr. Appleton Ist prize, and Mr. J. S. Wetherall the 2nd prize. Some people have gone so far as to assert, these errors were intentional on the part of the Secretary; but such an assertion is not only unfounded, but ridiculously absurd. The Secretary, on such occasions has a good deal to attend to, -and the wonder is, that in so much hurry and confusion, it was got up as correct

as Il Was.

We have received a letter from Mr. J B. McGann, of Toronto, stating we had been misinformed in reference to the parties who contributed articles to the Baznar, on the occasion of the late Soirce at the Holland Landing. It now appears that \$10 had been voted by the Ontario Division S. of T.; \$5 from some of the members of the Coldstream Division, and \$10 of personal contributions, and a few presents from three families in Toronto. The above amounts were expended in the purchase of articles for the Bazaar, and the balance of the goods were bestowed by the Ladies of Holland Landing. It is now too late to publish a lengthy communication regarding the matter: we have therefore selected the above particulars, in order to correct any false impressions that may have gone abroad.

A GENTLE UINT .- For a length of time we have refrained from calling the attention of those in arrears to the fact, that Printers, like other people, have wants that must be son; 2nd do, John Colley. supplied-and that these wants cannot be satisfied without money. The times are tightlabor and stock have to be paid for as the year rolls round, and to continue business, we must have the wherewill to meet current demands. To do this, it will be necessary for those indebted to us for Job Peinting, Advertising and on subscriptions to settle their accounts with this office without delay. By so doing trouble will be arred and no expenses incurred, We have now waited on some of our friends nearly five years, and we can assure them, it is not our intention to allow-their accounts

to become outlawed. North York Agricultural Society.

On account of urgent business connected with the above society, a call for a meeting of Directors and members was made for

Tuesday last, the 20th inst. In the absence of both the President and | do., Jos. Edwards. Vice President, Mr. Joshus Willson was called to the chair.

The Becretary stat d the nature of the business It was intended to bring before them, but as the meeting was wenting a member strong; 2nd do. Win. Poster. or two to form a quorum, they would have

to adjourn. . On motion of Mr. Wallis, seconded by Mr. Playter, the meeting then adjourned, to

meet at the call of the President. [As an officer of the society having to do with a large number of the members, we do., John Johnson. were sorry there were not sufficient in attendance to transact basiness. Several Complaints have been made about prizes being 2nd do., P. Tracy. awarded to competitors who had no right to have been adjusted previous to orders being drawn on the Tremarer by the Becretaty. The \$10 oppropriated to the ladies | wards.

Work, also, wants apportioning. It is now time, too, that delegates were appointed to confer with those nominated by other Township Societics, for the purpose of forming an Electoral District Society. The Secretary of the society had been instructed to inform We histor branches that the thecting of Dela gates would take place early in November and these societies have replied that their delegates desire some ten days notice of the

meeting in order to come prepared! I. The importance, therefore, of an early meeting would force itself upon any well regulated mind, and we are sorry that so few were in attendance. We hope, when another cell is made, there will be more present; and that, officers and members will be more ready, to rmake a slight personal sacrifice for the good

of the whole Since the above was pul in type another call basibeen made for a meeting on Tuesday next, when we hope too see a large attendance.- It appears the absence of the Presideat and Vice-President at lest electing was undenidable and not intentional) !!!

King Township Agricultural Society.

The Annual Fall Exhibition of the above Society fook place at Lloydiown, on Friday gales. last, the 16th inst. Although the wind blew cold, the day was fine, and there was a large collection of people:

The exhibition was admitted by all to be the best ever held by the Society, and the display male was really creditable to the Township. In draught horses there were a good many entries, and some of the nnimals were quite of a superior description. The Coles, also,

gave evidence of considerable improvement. In cattle there was not the improvement noticed in the class of Horses, although there were some noble specimens. The oxon were certainly very good; but we thought the milch cows inferior to those exhibited last year. The young cattle promised well for the future. On the whole we do not think there is as much attention paidto rajsing cattle in the north as at the south part of the Township; but the north appear to enter more largely into the breeding of horses and sheep. The animals exhibited, however, were considerably above mediocritye

In sheep there was a fine display : seldom will better be seen at any Township exhibition. The number of entries, too, we are led to believe, exceeded considerably any former occasion: Here might be seen thorough-breds, half-breds and grades-long wool and short wool-fine wool and c arse: and all of a superior description in their

The Grain, Seeds, Vegetables, Dairy Productions, Implements, &c., were also very good, and each class well represented. It some, the contest was very close, and the judges found it extremely difficult to make a decision. The following is the premium

"Fair Play" on the Stool again. We nerer bare, neither do me intend, paying mach attention to anonymous scribblersparticularly thost who, over fictitious signalures, thrust at character or seek to gain personel aggrandizement ; but me cannot refram from'making's few remarks soent an article which appeared in last week's issue of the Richmond Hill Gasette, over the signature of " Fair Play." A few weeks ago we bad occasion to enstigate this same specimen of humanity, who, under the garb of Justice, sought to gain some personal object by traducing the character and actions of others the " latchet of whose shoes he was unworthy to unloose;" and in the last issue of the Gazette, the attempt is repeated. Whether he was a disappointed candidate at the late Municipal Election in the Township of Whitchurch, or whether he is now mining at making a little. capital for the forthcoming contest, time alone will tell-and it matters not a whit to'us; but we must protest against the way this aspirant to office, who, without any regard for the public weal follows in the lootsteps of political demagogues of the age, reeks to build up his own reputation, by traducing the actions and character of his superiors. 'The name" Fair Play," assumed by this modern L. D., i altogether a misnomer. Were he an honest man, where the actions of local officers are called in question, he would write over his real signature,-come out fair -and state his grievance, without meddling with those, who hire no control over them. But, no! like the cowardly assassin, who, while shaking you by the hand and manifesting the kindest regard for your welfare, is seeking a favorable op-

gortuuity to take away your life. But to the article in question. " Fair Play, previous to the appearance of his first article, must have been for a length of time growing exceedingly billions; no one, however, thought him dangerous until he began to froth through lange " Fair Play" to show to the contrary the Gazette. We had therefore compassion on the poor fellow and administered a mild purgative in the shape of a " pill." This appears Richard Wells ; 2nd do., Thos. Irwin ; 3rd | to have the desired effect,-for doctors say. they must always make their patients worse to cure them; and " Fair Play's" last exhibition of himself, gives the public a capital idea of his ignoranco, selfishness and viodictiveness. He says he has still some hidden thing in reserve but the big bombshill has been fired-the Chancil of Whitchurch is ever wrong, and the Editor of the New Era is at their head .-This is the burden of his song; and it makes him feel bad. Fair Play says " the Hall at Lemonville has very comfortable appearance. Now, we should like to ask this lover of justice, how long the Hall has been completed? We venture to affirm that not a public House in the Municipality can be found, but some one or more of these | no desire or gratification, in being permitted to Timothy Seed-1st prizo, Orlin Chappel; bills were left for posting, besides a large number left with each Councillor for distribution among the rate-payers. He says, notwith standing the above facts, " they never have been published." Now, we put it to the electors, whether a man so capable of deception, or so totally ignorant of Township matters, is really sane, -much less qualified to sit as a ruler amongst them at their Council Board? He asks " where is our Clergy Re. serve money gone ! and then states he is confident there are not six men south of the Ridges that could answer that question." But cil of Whitchurch wish to keep clean hands t won't do. It is too late in the day.

This modern specimen of Fair Play and lover of justice next calls into question the figures we gave about what Newmarket pays; o, and receives from, the Township Treasury But to show the ignorance he displays we have only to state that he asserts the Township of Whitchurch granted £25 towards the Town Line, "soon to become the property of a Road Company, on which tall gates will shortly be erected." This will also be news to his section of country. The Road Company is constructing the Town Line between King and Gwillimbury; but we never heard of thi Municipality giving money to make Roads hrough other Townships. Wonder if his mother has sold her mangle ?" The money appropriated to Gorham Street, as he calls it, s altogether outside of the Corporation -- al least all but some lour or five rods: how can this be called in Newmarket ? However, the electors will find the difference another year, when the Collector makes his periodical callwhether Newmarket assisted in paying their taxes or not. We again assert, and we chalthat Newmarket Corporation -- or rather the bounds of our corporation—contributes this rear between \$500 and \$600 towards the Township fouds, and only receives about £35 n return. We grant the roads in Nemmarket are in good repair; but no thanks to the l'ownship. The people had to put their hands in their pockets and pay for the repairs. We

Draft Sin, - Permit me through the medium of your paper, to ask the Committee of the Mechanica' Institute, why it is, that the Ladies are not permitted to become mumbers of their Debating Society? We gently submitted to the privation last Winter, but now we have resolved to bestir ourselves, and see what we can do in the matter. We desire to reason wit reasonable men, not with those who view as as colony by themselves, excluded for ever, from the society and smile of Woman.) Is it not in the Nutsery, under Woman's care and patience that the first trains of thought proceed? and as years roll on, and these sons of pride leave the Nursery, to develop talent, and knowledge, In your debating Society, which years of patient teaching, hoping against hope, may have produced, think you we should feel listen to them? We scorn the idea of Woman's roice being heard in public, we only ask to be allowed to listen, that we may have fresh onergy, new trains of thought to direct those as yet infants, who if spared, must take their places upon the stage of action when our own heads shall tie low in the dust. It is no little matter that we should thus be trifled with. . Trusting your Committee will consider the matter, and with best wishes for the prosperity of the Society,

Yours respectfully, . . .

GRAND Trunk POLICY, TS. HONRATY -

there is propo at present, that will dispute

that the Grand Trunk Railroad has been blessing, in one sense to Canada; while as great a curse in another. The one great principle aced upon, has been for the good of their perkets to day, without a reference to the merroic. A company underbok it for the perpose of a companies aggrandize ment. Contractors and speculators have had reference alone to themselves, and not to the company nor the public. This may b right, its the habit of the ago, and we do not dispute it. But since to save their solvency the Province has had to pay their debts, and assume their delinquencies, we have become personally and publicly interested shurehold ors in it. Then upon the plea of equal rights, if not upon honest principles, we A Vienna letter says that the Ponte is about | claim equal usage and taritle with one anto issue a circular to the great powers, refusing other, in the same position.
